**Subject:** Icicle Temp

All,

Malenna put me in contact with Jill Nogi of the EPA to provide her with water temperature information for Icicle Creek on March 24. Jill and I exchanged numerous emails then had a lengthy phone call on April 14, regarding her data needs. Afterwards I sent her the attached excel document that contains raw temperature data for 6 locations for 2010-2015. After the conversation I read Steve's email regarding limiting the amount of people who send data outside the agency and chatted with both Bill and Steve and everything seemed fine. I saw another email from Steve this morning regarding Icicle temp data, I'm not sure if there was another data request or not but this email should put everyone on the same page. Please let me know if there are any more Icicle temp data requests.

Cheers,

--
